# Private Client

Many of the families whom we look after have been private clients of Hunters for several generations. We believe that to be testament to the high level of advice and quality of service that we provide.

The number of families and individuals who have chosen to instruct us for the first time in recent years suggests that our capabilities are widely recognized.

We carry out a very significant amount of work with a 'cross-border' element – for non-domiciled/residents in the UK, and for UK citizens who are domiciled/resident abroad.

## Family Services

Families and relationships can be complex and emotionally fraught and our aim is to assist you by working with each client individually to achieve the outcome that is right for you and your family.

We specialise in quick and effective help to clients from around the world, providing specialist legal advice on all aspects of family law.

The team is recommended in the Legal 500 and Chambers.

## Dispute Resolution

Disputes are a fact of life. We provide an efficient, solution-focused service to match our clients’ litigation needs.

Our experience covers work in the Supreme Court, Court of Appeal, High Court and the lower courts, as well as Alternative Dispute Resolution procedures.

We are delighted if we can assist in resolving a dispute early on. We advise on alternative approaches to dispute resolution, and we have experienced mediators available to help.

Much of our work concerns complex, high-value cross-border and multi-jurisdictional disputes for UK and overseas clients.

The department is recommended in the Private Client: Contentious Trusts and Probate section in both the Legal 500 2015 and Chambers 2015, described in the Legal 500 as “widely experienced”. We are also acknowledged in Chambers Global for our litigious work.

## Residential Property

We handle all legal matters relating to the sale and purchase of freehold and leasehold property in England and Wales.

We also advise on the myriad legal issues that arise out of the ownership or management of residential property.

We provide a personal, expert and effective service to everyone from first-time buyers to those well experienced in property ownership. We take care to explain fully all aspects of the purchase or the sale, the mortgage and the survey, and the wider implications of property ownership. We work closely with our Private Client team to take care of any tax and succession issues that may arise.

We are a member of the Law Society’s Conveyancing Quality Scheme (reference no CQS01902).

When they cease to be useful, we advise on their efficient termination. Our knowledge and experience of trust law is nationally recognised as being of the highest level.
